COMMISSIONER CHANEY DISAPPOINTED IN YAZOO PUMPS REJECTION

JACKSON, Miss. – Mississippi Insurance Commissioner Mike Chaney releases the following statement:

“I am disappointed in the Biden Administration’s lack of action to protect Mississippians and their property through the rejection of the Yazoo Pumps Project. I have long farmed and worked that Delta area and understand the impact this cancellation will have on our agricultural community and Delta residents. I will continue to support and fight for the installation of Yazoo pumps.”
